RE: PROPOSED RULEMAKING ON PROCESSING OF COOPERATIVE UTILITY RATE CASES
(DOCKET NO. RU-00000A-12-0270)

On August 9, 2012, Arizona Corporation Commission (ACC) approved a proposed rulemaking that will provide an alternative rate case process for Electric and Natural Gas Cooperatives as well as Generation and Transmission Cooperatives. Your Board of Directors supports this effort because it may result in the following:

- Savings of 50% to 80% in the cost of filing a rate case with the ACC which are direct savings to our members.
- Rate case process completed in approximately 6 months rather than the current 13 month period.

Member rights do not change as a result of this proposed rulemaking.

Member notice will be provided to all members in advance of a rate case filing.

Members may object, intervene or request a hearing upon receiving notice of a rate case filing.

If 1,000 members or 5% of the membership, whichever is less, object to the rate case, then the typical, more extensive rate case process will be required.

Cooperatives must meet certain conditions to file a rate case under this rule such as the increase in revenues is limited to no more than 6%, limitations on frequency and number of rate case filings and limitations on adjustments to rates.

Your Cooperative is committed to providing reliable service at the lowest cost. This proposed rule should save your Cooperative time and expense during the rate case process which would result in savings to you as a member. If you would like to comment on this proposed rule with a letter/postcard/email, please use the ACC address that is included below.

If you have questions or would like additional information regarding the proposed rule, please contact our office at (928) 359-2503 or the Arizona Corporation Commission at the address below.
